**E-mail:** [projet.helpbatchenga@yours-asso.org](mailto:projet.helpbatchenga@yours-asso.org)

## 1. Background and justification

In some areas of Cameroon, hospitals are experiencing precarious health care. This is the case of the District Medical Center (CMA) of Batchenga, in the Lékié region, located 58 km from the Cameroonian capital of Yaoundé, which suffers from a glaring lack of basic medical equipment to ensure quality care to the 6125 women and men of this place. This worrying situation affects the health and well-being of the local population.

Faced with this unpleasant situation, the **YOURS association**, which has been committed to the well-being of all since 2023, has launched the **"Help Batchenga"** project, which aims to mobilise international partners, including medical professionals and European health structures, to procure the necessary medical equipment and improve the quality of care in a sustainable way.

## 2. Project objectives

### *A. Main objective*

Fill a 20-foot container with materials that can be used in the long term to sustainably improve patient care at the CMA<sup>1</sup> in Batchenga and to assist patients of other hospitals in the region of Lekie .

### *B. Specific objectives*

- Establish an accurate diagnosis of the medical needs of the CMA<sup>1</sup> in Batchenga.
- Raise awareness among donors and international partners about the lack of equipment and the failure of the patients care system.
- Procure essential medical equipment through donations and partnerships with European hospitals and health facilities.
- Establish an efficient logistics system to transport and install the equipment at the CMA<sup>1</sup> in Batchenga.
- To establish partnerships that can lead to an improvement in the quality of treatment for patients in other hospitals in the coming years.

<sup>1</sup> District Medical Center

### 3. Method of operation

#### *A. Diagnostic phase (January 2025) :*

- Visit of the CMA <sup>1</sup> in Batchenga : The Yours delegation, led by its President, was received by the Director Dr. Adeline NGUAFAC.
- Collection of images and videos to illustrate the current conditions.
- Preparation of a preliminary report on the needs identified.

#### *B. Elaboration of the project (January - February 2025) :*

- Integration of the images and videos into an awareness document.
- Development of a fundraising strategy.
- Finalization of the official document to be presented to the partners.

#### *C. Mobilization of partners (March – June 2025) :*

- Search and connect with health professionals who can support the initiative at various levels.
- Solicitation of in-kind and financial donations from hospitals and European health institutions.
- Awareness campaign through various channels (media, social networks, conferences).

#### *D. Reception and Installation of Equipment :*

- Transporting the equipment received to Batchenga.
- Distribution of equipment according to the needs of the CMA <sup>1</sup> and the other hospitals in the region Lekié .
- Evaluating the impact of the project on the ground.
- Report to donors.

<sup>1</sup> District Medical Center

#### 4. List of material needs

Based on the needs identified at Batchenga District Medical Center, this equipment, categorized by department, will help improve the quality of care and strengthen operational efficiency.

##### A. LABORATORY EQUIPMENT :

Designation	Quantity
Hematological Analyzer	01
Centrifuge	01
Laboratory Chair	02
Yellow and blue lace	1000
Micropipette (0-50µl, 50-100µl,5001000µl)	03
Binocular microscope	01
Inverter	01
Dustbin	10
Refrigerator	01
Voltage regulator	04
Spectrophotometer	01

**Laboratory Chair**

**Hematologic Meter**

**Micropipette**

## B. OFFICE EQUIPMENT

Designation	Quantity
Office chair	05
Desktop Printer/Copier	03
Computer	03
Extension	06
Office table	05
Consultation table	04

**Consultation Table Office**

**Chair**

**Printer/PH**

**Office table**

### C. EQUIPMENT FOR C-CARE AND HOSPITALIZATION

Designation	Quantity
Cart	05
Small Surgical Box	02
Electronic Blood Pressure Monitor	02
Gallows	20
Bed + Mattress	10
Wheelchair	03
Bean	05
Treatment tray	05
Equilibrium	06
Thermometer	06
Care bed	02

Wheelchair

Thermometer

Scale

**Treatment Tray for Stem**

**Blood Pressure Monitor**

**YOURS**  
Association

**Care bed bed + mattress**

## D-VACCINATION AND MATERNITY EQUIPMENT

Designation	Quantity
Cold chain	01
Birth Set	50
Doppler	02

**The Doppler Cold Chain Birth Set**

## E-INFRASTRUCTURE MANAGEMENT

Designation	Quantity
Building	04
Fence	01
Solar Power Kit	01
Wheelbarrow	03
Machete	10
Seal	10
Squeegee	5

**Buildings for solar power systems**

## 5. Conclusion

The aim of the "**Help-Batchenga**" project is to improve the inadequate equipment of the CMA<sup>1</sup> in Batchenga in order to optimize the care of the patients. Through this approach and advocacy, we hope to gain the support of international partners and realize this project in order to have a sustainable impact on the local health system.

## FULL LIST OF REQUIREMENTS

Designation	Quantity
Hematological Analyzer	03
Building	04
